CAPABILITY STATEMENT

COMPANY OVERVIEW

Since its inception in 1997, Precision Contracting Pty Ltd has established itself as a leader in the provision of specialised services to the heavy industry sector. With expertise spanning pivotal sectors such as construction, power generation, offshore operations, timber processing, and mining, this wide-ranging experience across various industries showcases Precision Contracting's ability to solve complex problems and provide customised solutions for every sector.

Our team is comprised of highly experienced multi-disciplined professionals adept at navigating the intricacies of high-risk projects. Through a combination of skill, innovation, and stringent safety protocols, we excel in environments where precision and reliability are essential. This expertise, coupled with a deep pride in our work, ensures that we not only meet but consistently exceed the demands of our clients, particularly in projects characterised by high risk and complexity.

Precision Contracting leverages a blend of local knowledge and broad industry experience. Operating from strategic bases in Australia and utilising mobile maintenance units enables rapid delivery and comprehensive services throughout Australia. This flexibility allows the team to meet clients' needs, wherever they may be.

A dedication to excellence is evident in every project undertaken, from routine maintenance to complex new constructions and demolition. Precision Contracting's reputation for reliability and quality is a testament to their commitment to meeting and exceeding the expectations of their clients. This dedication has allowed us to forge long-standing relationships with a diverse client base, ranging from local enterprises to major industry players.

Multi-disciplined team, skilled in heavy industry service and support

MISSION

As we look to the future, our focus remains on continuous improvement, investing in our people and refining our processes. Our goal is to not only respond to the evolving needs of the industries we serve but to actively contribute to setting new standards of excellence in heavy industry service and support.

At Precision Contracting, we are not just contractors; we are partners in progress, committed to the success of our clients and the industries at large.

VISION

To foster and sustain long-term client relationships by delivering exceptional service and value for money, while prioritizing the safety of our clients, the general public, and our team.

CORE COMPETENCIES

CORE VALUES

SAFETY

At Precision Contracting, safety is the cornerstone of our philosophy. We understand that our operations, spread across industries known for their high-risk environments, demand uncompromising standards of safety. Every project, big or small, is approached with a safety-first mindset. We invest in ongoing training for our team, ensuring that everyone from the ground up is equipped with the knowledge and tools to work safely. Our commitment to safety isn't just about compliance, it's about protecting the well-being of our people, our clients & the communities we operate in.

EXCELLENCE

Excellence is at the heart of Precision Contracting. We pride ourselves on delivering services that not only meet but exceed expectations. This drive for excellence is what propels us forward, ensuring that every solution we provide is of the highest quality. From the precision of our workmanship to the efficiency of our processes, excellence permeates every aspect of our operations. It's this dedication to being the best that has earned us the trust and loyalty of our clients across industries. For us, excellence is not just an ambition, it's a standard.

CLIENT SUCCESS

For Precision Contracting, client success is paramount. We see our clients not just as customers, but as partners in a shared journey towards achieving their goals. Our approach is collaborative and tailored, ensuring that we understand and align with our clients' objectives from the outset. By investing in our clients' success, we forge relationships that go beyond the transactional, characterised by mutual respect and long-term value. Our commitment to client success drives us to deliver not just services, but solutions that contribute to their growth and success.

INNOVATION

Innovation is the fuel that drives Precision Contracting. We invest in cutting-edge technologies and foster a culture of continuous improvement, where every team member is empowered to think creatively. This innovative mindset allows us to tackle challenges with fresh perspectives and offer solutions that are not only effective but also forward-thinking. For us, innovation is a strategy for delivering sustainable value to our clients and staying at the forefront of our industry.

QUALIFICATION

At Precision Contracting, we uphold the highest standards of safety and excellence. Every member of our rope access team is IRATA-certified, ensuring the expertise to tackle challenging projects confidently. Our team is also trained in Occupational and Advanced First Aid, enabling swift responses to on-site emergencies. We specialise in Emergency Response services, including Standby Rescue for Confined Space and Working at Heights Rescue, safeguarding our team during high-risk jobs. These accreditations underscore our unwavering commitment to safety, professionalism, and excellence in every project.

CLIENTS & PROJECTS

LONG-LINE BREATHING APPARATUS

In our continuous pursuit of innovation and safety, we've developed a long-line breathing apparatus system. This system exemplifies our commitment to not only meet but exceed the safety standards within the industry. Understanding the critical importance of air quality and the challenges of working in extreme conditions, we've integrated refrigerated dryers into our apparatus to cool the air, ensuring that our workers breathe easily regardless of the ambient conditions.

The long-line feature of our apparatus extends our reach, allowing access to previously inaccessible work areas without compromising safety. This capability significantly enhances our operational efficiency and opens up new possibilities for project execution.

Additionally, we've incorporated air cylinders into our design, used as the primary air supply when the environment is unsuitable for compressor operations, or providing an additional layer of safety for our workers. This feature ensures that, in the unlikely event of a primary system failure, there is an immediate supply of air available, enabling safe and controlled evacuation from hazardous environments.

This innovative breathing apparatus is more than just equipment; it is a reflection of our dedication to pushing the boundaries of what's possible in industrial rope access and confined space work. By investing in technologies like these, we're not only protecting our team but also setting new industry standards for safety and efficiency.

TESTIMONIALS

High-Risk Scope — Planned and Executed Well

"Well done Wade and the team for getting this across the line!

You definitely had a few challenges to deliver this high-risk scope, but was planned and executed well."

- Ben van der Smissen, Santos

20-Year Working Relationship — Experience and Innovation

"WPF has a long-standing 20-year working relationship with Precision Contracting. WPF want to take a moment to thank the Precision Contracting management & technicians for helping us to complete our ongoing offshore Rope Access works successfully.

Through their experience & innovation techniques, we have greatly increased the productivity of our scopes, but more importantly, have increased the safety aspect during execution of the scopes.

Precision Contracting's highly trained crew are always well prepared for the hazards they encounter and are mindful when there are changes in the plan to keep safety at the forefront.

Our relationship has been 20 years and ongoing for a reason, Precision Contracting really are the number one of quality & safety in our industry when it comes to Rope Access. We're Looking forward to working with Precision Contracting and their team long into the future."

- WPF

High-Risk Scope — Planned and Executed Well

I would like to give you some feedback on Bandy's RATs team.

The team lead by Bandy with Matty backing him up worked well. These guys are super professional, they know their stuff and are a pleasure to work with and along with the rest of the crew made the perfect mix.

I was also impressed with the way the crew handled themselves on the island, I never had to pull anyone up for any indiscretions, they followed direction and executed there scope safely and swiftly.

As you know Mitch I don't write these emails very often but credit where credits due mate. Please feed this back down the line.

- Ben van der Smissen, Santos
